

Over 18,000 people have taken part in our consultation so far.

You spoke & we listened

You spoke...	We listened...
 <p>You thought the buildings were too tall</p>	<p>By reducing the height of buildings across the site. All buildings are now below 30 storeys.</p>
 <p>You thought the views were broken up by the buildings</p>	<p>By relocating buildings to maximise blue sky views</p>
 <p>You were concerned about fire safety</p>	<p>By putting two stair cases, fire lifts and sprinklers in all residential buildings</p>
 <p>You were concerned there would be more traffic and congestion</p>	<p>By creating a new junction with signals to regulate traffic flow. We are also maximising green travel and cycle and pedestrian routes and aiming to not generate any additional traffic in comparison to the existing situation</p>
 <p>You wanted a sustainable neighbourhood</p>	<p>By using green energies and sustainable materials. We aim to achieve BREEAM Excellent – BREEAM is the leading recognition for sustainability. The neighbourhood will be low-car with fewer parking spaces for Sainsbury’s based on demand and low parking for residents</p>
 <p>You wanted to see more greenery and open space</p>	<p>By increasing the planting and including the land on Ladbroke Grove for a new garden area. We are also opening up new routes through the site and to the canalside walk</p>
 <p>You wanted to see more play and sports areas</p>	<p>By increasing the number of play areas and providing a multi-sport facility for activities such as football, basketball, climbing, kayaking</p>
 <p>You wanted to see community space and affordable workspace</p>	<p>By creating a Community Hub with community space and affordable workspace</p>

P.T.O.

You spoke...	We listened...
 <p>You wanted to know what we are doing for the local community</p>	<p>By establishing partnerships with two local charities, the London Sports Trust and Full of Life Charity. We will also develop a community strategy with local people</p>
 <p>You wanted to know how we will look after the current people living and working on the site</p>	<p>By working with RBKC and Peabody, we will make sure that all residents and business tenants are found new homes during construction and then offered the chance to move back</p>
 <p>You wanted Sainsbury's to keep trading throughout</p>	<p>By agreeing and making sure we build the new store first before we close the old one</p>
 <p>You wanted to know about GP places</p>	<p>By providing financial contributions towards all GPs in the area via RBKC, we will ensure funding is in place for our residents' healthcare</p>
 <p>You wanted to know about school places</p>	<p>By providing financial contributions towards education in primary and secondary schools to RBKC, we will ensure funding is in place for our residents' education</p>
 <p>You wanted a rich mix of shops, restaurants and leisure</p>	<p>By introducing a new, modern Sainsbury's and creating 30 other shops, restaurants and leisure destinations across the neighbourhood. We also have a cultural strategy that will help to guide the look and feel of the neighbourhood</p>
